

PERP Report

Amorphous High Temperature Engineering Thermoplastics

03/04S12

December 2004

44 South Broadway, White Plains, New York 10601, USA
Tel: +1 914 609 0300 Fax: +1 914 609 0399

“This report was prepared by Nexant, Inc (“Nexant”) and is part of the Process Evaluation Research Planning Program (PERP). Except where specifically stated otherwise in this Report, the information contained herein is prepared on the basis of information that is publicly available, and contains no confidential third party technical information to the best knowledge of Nexant. Aforesaid information has not been independently verified or otherwise examined to determine its accuracy, completeness or financial feasibility.

Neither NEXANT, Subscriber nor any person acting on behalf of either assumes any liabilities with respect to the use of or for damages resulting from the use of any information contained in this Report. Nexant does not represent or warrant that any assumed conditions will come to pass.

The report is submitted on the understanding that the Subscriber will maintain the contents confidential except for the Subscriber’s internal use. The Report should not be reproduced, distributed or used without first obtaining prior written consent by Nexant. Each Subscriber agrees to use reasonable effort to protect the confidential nature of the Report.”

Contents

Section	Page
1 Executive Summary	1
1.1 SYNOPSIS	1
1.2 INTRODUCTION AND CHEMISTRY	2
1.2.1 Polysulfone/Polyethersulfone	3
1.2.2 Polyetherimide	4
1.3 PROCESS ECONOMICS	5
1.4 END-USE APPLICATIONS	7
1.5 COMMERCIAL STATUS	9
1.5.1 Consumption	9
1.5.2 Production	11
2 Introduction	13
2.1 POLYSULFONES	13
2.2 POLYETHERIMIDE	17
2.3 OTHER POLYSULFONES	19
2.4 HIGH TEMPERATURE POLYMERS	20
2.4.1 Flammability and Fire Retardancy	21
2.4.2 Stress Cracking and Chemical Resistance	22
2.4.3 Processing	23
2.5 APPLICATIONS	24
3 Chemistry	26
3.1 POLYSULFONES	26
3.1.1 Oligomers	28
3.2 MONOMERS	30
3.3 POLYETHERIMIDES	32
3.4 COMMERCIAL PRODUCTION - POLYSULFONE (PSU)	34
3.4.1 DCPS Monomer	34
3.4.2 PSU Polymer	35
3.5 COMMERCIAL PRODUCTION - POLYETHER SULFONE (PES)	36
3.5.1 DHDPS	36
3.5.2 PES Polymer	36
3.6 COMMERCIAL PRODUCTION -POLYETHERIMIDE (PEI)	39
4 Process Design	43
4.1 OVERVIEW	43
4.2 POLYSULFONE (PSU)	44
4.2.1 DCDPS	44
4.2.2 PSU Polymer	46
4.2.3 Polysulfone Compounding	53

4.3	POLYETHER SULFONE (PES).....	55
4.4	POLYETHER IMIDE (PEI).....	60
4.4.1	Wet End.....	60
4.4.2	Product Finishing.....	65
5	Process Economics	66
5.1	BASIS.....	66
5.2	INVESTMENT.....	67
5.3	ECONOMICS.....	69
5.4	SCALE.....	74
5.5	MONOMER INTEGRATION.....	75
5.6	CONCLUSION.....	77
6	Commercial Analysis	78
6.1	COMMERCIAL PRODUCTS.....	78
6.2	END USE APPLICATIONS.....	80
6.3	DEMAND.....	85
6.4	SUPPLY.....	88
7	Bibliography	90
8	Glossary	92
