

Xylenes

92-8

March 1994

CONTENTS

	Page
I SUMMARY	1
A. CURRENT TECHNOLOGY	1
B. DEVELOPING TECHNOLOGIES	4
C. COMMERCIAL ANALYSIS	5
II COMMERCIAL TECHNOLOGY	7
A. INTRODUCTION	7
B. FEEDSTOCK PRODUCTION	7
1. The Effect of Reformulated Gasoline on Aromatics Production	7
2. Other Sources	10
C. OVERVIEW OF XYLENES RECOVERY	10
1. Aromatics Extraction	10
2. BTX Separation	12
3. Fractionation of Mixed Xylenes	12
D. <i>para</i> -XYLENE SEPARATION	14
1. Crystallization Processes	14
2. Selective Adsorption	16
E. ISOMERIZATION	16
F. TOLUENE DISPROPORTIONATION	18
G. ECONOMICS	19
1. Basis	19
(a) Feedstock Evaluation	19
(b) Investment	20
(c) Production Costs	20
2. BTX	21
3. <i>para</i> -Xylene Production via Toluene Disproportionation	23
(a) Toluene Feedstock	23
(b) Toluene/C ₉ Aromatics Feedstock	29
4. <i>para</i> -Xylene Production from Mixed Xylenes	29
(a) Production Cost of Adsorption Plus Isomerization	29
(b) Adsorption Compared to Crystallization	34
(c) <i>para</i> -Xylene with By-product <i>ortho</i> -Xylene Production	40
(d) New Isomerization Catalyst	40

III	NEAR COMMERCIAL TECHNOLOGY	46
	A. INTRODUCTION	46
	B. IMPROVEMENTS IN EXISTING TECHNOLOGY	46
	C. LIGHT NAPHTHA REFORMING	46
	D. TOLUENE METHYLATION	46
	1. Chemistry	50
	2. Process Basis	53
	3. Process Description	54
	4. Production Cost	58
	E. AROMATIZATION OF C ₂ ALKANES	61
	F. AROMATIZATION OF C ₃ /C ₄ ALKANES	62
IV	POTENTIAL DEVELOPMENTS	65
	A. PRODUCTION OF XYLENES FROM METHANE	65
	B. PRODUCTION OF XYLENES FROM METHANOL	66
	C. COMBINED PRODUCTION TECHNOLOGIES	67
V	COMMERCIAL ANALYSIS	70
	A. APPLICATIONS	70
	1. Background	70
	2. Mixed Xylenes	70
	3. <i>para</i> -Xylene	72
	4. <i>ortho</i> -Xylene	73
	5. <i>meta</i> -Xylene	75
	B. SUPPLY AND DEMAND	77
	1. United States	77
	(a) Demand	77
	(b) Supply	79
	2. Canada	81
	(a) Demand	81
	(b) Supply	81

3.	Western Europe	82
	(a) Demand	82
	(b) Supply	86
4.	East Asia	89
	(a) Japan	93
	(1) Demand	93
	(2) Supply	93
	(3) Supply/Demand Balance	94
	(b) South Korea	95
	(1) Demand	95
	(2) Supply	96
	(3) Supply/Demand Balance	96
	(c) Taiwan	97
	(1) Demand	97
	(2) Supply	98
	(3) Supply/Demand Balance	98
	(d) China	99
	(e) Indonesia	100
	(1) Demand	100
	(2) Supply	100
	(3) Supply/Demand Balance	101
	(f) Singapore	101
	(g) India	102
