

meta-Xylene/Isophthalic Acid

94/95S14

February 1997

TABLE OF CONTENTS

	Page
I SUMMARY	1
A. TECHNOLOGY AND ECONOMICS	1
B. COMMERCIAL ANALYSIS	4
II INTRODUCTION	7
III COMMERCIAL TECHNOLOGY	10
A. XYLENE PRODUCTION	10
1. Introduction	10
2. Xylenes Recovery Processes	11
3. <i>meta</i> -Xylene Purification/UOP MX Sorbex Process	16
4. <i>meta</i> -Xylene Purification/Mitsubishi Gas Chemical Process	20
B. ISOPHTHALIC ACID	23
1. Chemistry	23
2. Process Description	24
IV ECONOMICS	32
A. BASIS	32
1. Feedstock Evaluation	32
2. Investment	34
3. Production Costs	34
B. <i>meta</i> -XYLENE	35
C. ISOPHTHALIC ACID	40
V COMMERCIAL ANALYSIS	44
A. BACKGROUND	44
B. PET RESIN MODIFIER	45
C. UNSATURATED POLYESTER RESINS	48
1. North America	48
2. Western Europe	51
3. Rest of World	52

**TABLE OF CONTENTS
(Continued)**

	Page
D. COATINGS	54
E. <i>meta</i> -ARAMID FIBERS	56
F. PRODUCERS/CAPACITY	58
G. U.S. SUPPLY/DEMAND BALANCE	61
1. Base Case	61
2. Reduced Price Scenario	62
(a) Introduction	62
(b) PET Packaging Resins	63
(1) Bottle Resins	63
(2) Specialty Packaging Resins	63
(c) Unsaturated Polyester Resins	64
(d) Coatings	65
 PERP TITLE INDEX	 66

TABLES

	Page
Table I.B.1 Global Isophthalic Acid Capacity, 1996	6
Table III.A.1 C ₈ Aromatic Distribution in MX Sorbex Feed	18
Table III.A.2 Merchant <i>meta</i> -Xylene Specifications	19
Table III.B.1 Isophthalic and Terephthalic Acid Solubility	24
Table III.B.2 Sales Specifications of Purified Isophthalic Acid	31
Table IV.A.1 U.S. Gulf Coast Feedstock, Byproduct, and Utility Prices, 3rd Qtr 1996	32
Table IV.B.1 Cost Estimate of <i>meta</i> -Xylene Production via UOP MX Sorbex	37
Table IV.C.1 Cost Estimate of Isophthalic Acid via <i>meta</i> -Xylene Oxidation	41
Table V.B.1 PET Bottle Resin Production, 1995 and 2000	47
Table V.C.1 Unsaturated Polyester Resin Demand, 1992-2005	49
Table V.C.2 U.S. Estimated Substitution of IPA for PAN, 1995	51
Table V.C.3 West European Unsaturated Polyester Resin Demand, 1992-2005	53
Table V.E.1 Physical Properties of <i>meta</i> -Aramid Fibers	58
Table V.F.1 Global Isophthalic Acid Capacity, 1996	60
Table V.F.2 Global <i>meta</i> -Xylene Capacity, 1996	61
Table V.G.1 U.S. Isophthalic Acid Supply/Demand Balance, 1995-2005	62
Table V.G.2 Estimated Increased Substitution of IPA for PAN in U.S. UPRs at Reduced IPA Price	65
