

Dimethyl Ether
97/98S8

February 1999

TABLE OF CONTENTS

	Page
I EXECUTIVE SUMMARY	1
A. INTRODUCTION	1
B. TECHNOLOGY	1
1. Chemistry	1
2. Conventional Methanol Dehydration	2
3. Haldor Topsøe One Step Process	4
4. Air Products LPDMETM Process	4
C. ECONOMICS	5
D. COMMERCIAL	7
 II TECHNOLOGY	 9
A. INTRODUCTION	9
1. Chemistry	9
2. Catalysts	13
(a) Conventional Methanol Dehydration	13
(b) Single Step Syngas to DME	14
B. CONVENTIONAL METHANOL DEHYDRATION	17
C. HALDOR TOPSØE ONE STEP SYNGAS TO DME PROCESS	19
D. AIR PRODUCTS LIQUID PHASE DME ₂₄	
E. PATENT AND LITERATURE REVIEW	29
1. Air Products and Chemicals, Inc. (United States)	29
2. Chemical Research and Licensing Company (USA)	30
3. Eastman Kodak Company (USA)	30
4. Haldor Topsøe (Denmark)	30
5. Huntsman Specialty Chemicals (United States)	30
6. Mobil Oil Corporation (United States)	30
7. NKK Corporation (Japan)	31
8. RWE-DEA Aktiengesellschaft für Mineraloel und Chimie (Germany)	31
9. Shell Oil Company (Holland, United States)	32
10. Snamprogetti S.p.A. (Italy)	32
11. Starchem (United States)	33

**TABLE OF CONTENTS
(Continued)**

	Page
III ECONOMICS	34
A. COST OF PRODUCTION	34
1. Conventional Methanol Dehydration	34
(a) Capital Cost	34
(b) Cost of Production	35
2. Air Products LPDME Process	41
(a) Capital Cost	41
(b) Cost of Production	41
B. COMPARATIVE ECONOMICS	44
IV COMMERCIAL	52
A. USES	52
1. Propellants	52
2. Solvents	53
3. Diesel Fuel Applications	53
(a) Emission Properties	53
(b) Additional Diesel Properties	55
(c) Fuel Distribution and Infrastructure	56
4. Other Fuel Applications	56
(a) LNG Alternative	56
(b) Power Generation	57
5. Intermediates	57
B. DEMAND	58
1. Dimethyl Ether	58
2. Diesel Fuel	58
C. SUPPLY	59
1. Dimethyl Ether	59
2. Diesel Fuel	60
REFERENCES	62
APPENDIX: ELEMENTS OF CHEM SYSTEMS' CAPITAL COST ESTIMATES	64
PERP TITLE INDEX	69
