

*Polypropylene*  
*98/99-1*

*January 2000*

## TABLE OF CONTENTS

	Page
<b>I EXECUTIVE SUMMARY</b>	1
A. INTRODUCTION	1
B. ECONOMICS	2
C. GLOBAL DEMAND SUMMARY	4
1. Conventional Polypropylene	4
2. Metallocene Polypropylene	6
<b>II CONVENTIONAL TECHNOLOGY AND ECONOMICS</b>	7
A. INTRODUCTION	7
1. Chemistry and Catalysts	7
2. Process Developments	10
B. GAS-PHASE PROCESSES	14
1. BP Amoco	14
(a) Background	14
(b) Process Description	15
2. Chisso	23
(a) Background	23
(b) Process Design	24
3. Sumitomo	28
(a) Background	28
(b) Process Description	29
4. Targor (NOVOLEN)	31
(a) Background	31
(b) Process Description	33
5. Union Carbide (UNIPOL)	37
(a) Background	37
(b) Process Description	38
C. BULK PROCESSES	45
1. Introduction	45
2. Mitsui Chemicals (HYPOL)	45
(a) Background	45
(b) Process Description	46
3. Montell (SPHERIPOL)	50
(a) Background	50
(b) Process Description	52
D. BOREALIS (BORSTAR) BULK/GAS PHASE	58
E. IMPROVED SLURRY	61
1. Introduction	61
2. Background	61
3. Process Description	62
F. POLYPROPYLENE ECONOMIC COMPARISON	65
1. Economic basis	65
(a) Introduction	65
(b) Inside Battery Limits Investment	67
(c) Outside Battery Limits	68
(d) Other Project Costs	69
(e) Miscellaneous Owner's Costs	70

## TABLE OF CONTENTS (Continued)

	Page
(f) Working Capital	70
2. Cost of Production	71
G. METALLOCENE-BASED POLYPROPYLENE	92
1. Chemistry	92
2. Technology	95
(a) Introduction	95
(b) Isotactic	95
(c) Syndiotactic	99
3. Economics	100
H. PATENT REVIEW	107
1. Introduction	107
2. BASF	107
3. BP Amoco	107
4. Borealis	107
5. DSM	107
6. Dow	108
7. DuPont	108
8. Exxon	108
9. Fina	108
10. Hoechst (Elenac)	109
11. Japan Polychem (Mitsubishi Chemical/Tonen JV)	109
12. Mitsui	109
13. Mobil	109
14. Montell'	109
15. NOVA	109
16. Phillips	109
17. Sumitomo	110
18. Targor	110
19. Tosoh	110
20. Union Carbide	110
<b>III COMMERCIAL ANALYSIS</b>	<b>111</b>
A. INTRODUCTION	111
B. NORTH AMERICA	112
1. Introduction	112
2. United States	112
(a) Demand	112
(1) Film	113
(2) Fiber and Filament	114
(3) Blow Molding	114
(4) Injection Molding	115
(5) Other Extrusion	115
(6) Compounders	115
(7) Resellers/Distributors	116

## TABLE OF CONTENTS (Continued)

	<b>Page</b>
(8) Polypropylene Impact Copolymer	116
(b) Supply	118
(c) Supply/Demand and Trade Balance	121
3. Canada	122
(a) Demand	122
(b) Supply	123
(c) Supply/Demand and Trade Balance	123
C. JAPAN	124
1. Introduction	124
2. Demand	124
(a) Film	124
(b) Fiber	125
(c) Blow Molding	125
(d) Injection Molding	125
(e) Other Extrusion	126
(f) Copolymer Demand	126
(g) Metallocene	126
3. Supply	126
4. Supply/Demand and Trade Balance	128
D. WESTERN EUROPE	129
1. Introduction	129
2. Demand	129
(a) Film	130
(b) Fiber	130
(c) Blow Molding	131
(d) Injection Molding	131
(e) Extrusion	132
(f) Summary	132
3. Supply	132
4. Supply/Demand and Trade Balance	136
E. GLOBAL SUMMARY	137
1. Demand	137
2. Supply	139
3. Global Trade	142
4. Supply/Demand and Trade Balance	143
<b>GLOSSARY</b>	<b>145</b>
<b>REFERENCES</b>	<b>147</b>

## TABLES

	<b>Page</b>	
Table I.A.1	Net Polypropylene Expansions by Region (1999-2003)	1
Table I.C.1	Polypropylene Demand by End Use - Global	5
Table I.C/2	Metallocene Polypropylene Demand by End Use - Global	6
Table II.A.1	MFR and MWD Characteristic	10
Table II.A.2	Polypropylene Technology Developments	11
Table II.A.3	Extruder System Rates	13
Table II.B.1	Plants Using BP Amoco's Gas-Phase Polypropylene Technology	15
Table II.B.2	Plants Using Chisso's Gas-Phase Polypropylene Technology	24
Table II.B.3	Grade Ranges Produced by Sumitomo Gas-Phase Polypropylene Process	28
Table II.B.4	Sumitomo Polypropylene Process Licensees	29
Table II.B.5	Plants Using Novolen's Polypropylene Technology	32
Table II.B.6	Plants Using Unipol Polypropylene Technology	39
Table II.C.1	Polypropylene Technology Based on Mitsui Technology	46
Table II.C.2	Plants Using Spheripol Polypropylene Technology	50-52
Table II.C.3	Maximum Residues on Reactor Powder	56
Table II.F.1	Cost Included in ISBL for Product Blending, Storage, Packaging and Warehouse	66
Table II.F.2	Indirect Construction Costs	68
Table II.F.3	OSBL Investment Cost Basis	69
Table II.F.4	Raw Material, Utility, and Labor Costs	71
Table II.F.5	Polypropylene Homopolymer Cost of Production Summary	72
Table II.F.6	Polypropylene Impact Copolymer Cost of production Summary	72
Table II.F.7	Cost Estimate for Polypropylene (Homopolymer) Process: BP Amoco Gas Phase	73
Table II.F.8	Cost Estimate for Polypropylene (Homopolymer) Process: Chisso Gas Phase	74
Table II.F.9	Cost Estimate for Polypropylene (Homopolymer) Process: Sumitomo Gas Phase	75
Table II.F.10	Cost Estimate for Polypropylene (Homopolymer) Process: Targor Novolen Gas Phase	76
Table II.F.11	Cost Estimate for Polypropylene (Homopolymer) Process: UCC Unipol Gas Phase	77
Table II.F.12	Cost Estimate for Polypropylene (Homopolymer) Process: Mitsui Hypol Bulk	78
Table II.F.13	Cost Estimate for Polypropylene (Homopolymer) Process: Montell Spheripol Bulk	79
Table II.F.14	Cost Estimate for Polypropylene (Homopolymer) Process: Borealis Borstar Slurry/GP	80
Table II.F.15	Cost Estimate for Polypropylene (Homopolymer) Process: Improved Slurry	81
Table II.F.16	Cost Estimate for polypropylene (Impact Copolymer) Process: BP Amoco Gas Phase	82
Table II.F.17	Cost Estimate for Polypropylene (Impact Copolymer) Process: Chisso Gas Phase	83
